

Lijing Wang

CONTACT INFORMATION	(650) 644-5089 lijingwang.github.io	lijingwang@lbl.gov, lijing.wang@uconn.edu ORCID: 0000-0001-8121-5465
PROFESSIONAL EXPERIENCE	Lawrence Berkeley National Laboratory (LBNL) Postdoctoral Fellow, Climate & Ecosystem Science Division 2023/04 - present	
	University of Connecticut Assistant Professor, Department of Earth Sciences expected 2024/08	
EDUCATION	Stanford University Ph.D. in Earth and Planetary Sciences 2017/09 - 2023/03 (Formerly Geological Sciences) Ph.D. minor in Computer Science 2021/09 - 2023/03 Dissertation title: <i>Integrating data and models for sustainable decision-making in hydrology</i> Committee: Jef Caers (Primary advisor), Kate Maher, Tapan Mukerji, Peter Kitanidis, Mykel Kochenderfer	
	Peking University B.S. in Space Physics and Applied Mathematics 2013/09 - 2017/07	
	Hong Kong University of Science and Technology Physics, exchange program with a full-tuition scholarship 2014/09 - 2014/12	
RESEARCH INTERESTS	Model-data integration for hydrology, machine learning-based inverse methods, data science for geosciences, stochastic geomodeling, non-stationary geostatistics, decision making for uncertain hydrologic systems	
BOOKS	[1] L. Wang , Z. Yin, J. Caers, Data Science for the Geosciences, <i>Cambridge University Press</i> , 2023	
JOURNAL PUBLICATIONS	[12] L. Wang , Z. Perzan, T. Babey, M. Briggs, S. Pierce, B. Rogers, J. Bargar, K. Maher, Revealing Beavers' Influence on Flow Dynamics: Hydrologic Modeling and Calibration in an Intermountain Floodplain Aquifer, 2023 (in prep.) [11] A. Miltenberger, L. Wang , T. Mukerji, J. Caers, Formulating and Solving the Data-Consistent Geophysical Inverse Problem for Subsurface Modeling Applications, EarthArXiv, 2023 [10] L. Wang , L. Peeters, E.J. MacKie, Z. Yin, J. Caers, Unraveling the uncertainty of geological interfaces through data-knowledge-driven trend surface analysis, <i>Computers & Geosciences</i> , 2023

INVITED TALKS	University of Arizona Department of Hydrology and Atmospheric Sciences Seminar	Apr 2023
	SLAC National Accelerator Laboratory Environmental Geochemistry Group Research Talk	Mar 2023
	University of Connecticut Department of Earth Sciences Seminar	Feb 2023
	University of Florida Department of Geological Sciences Seminar	Jan 2023
TEACHING AND MENTORING	Data Science for Geoscience (GEOLSCI 6, GEOLSCI 240) Teaching Assistant, Stanford University	2019 - 2022
	<ul style="list-style-type: none"> • Taught both graduate level (~ 40 students) and undergraduate level (~ 15 students) classes • Developed new course materials including geoscientific data case studies, python notebooks and homework • Mentored students to apply data science tools to their own geoscientific problems • Designed a new textbook: Data Science for the Geosciences 	
	Data Science for Social Good Summer Program Technical Mentor, Stanford Data Science, Stanford University	Summer 2021
	<ul style="list-style-type: none"> • Mentored three student fellows: one graduate and two undergraduate students • Technical mentor for the project: Measuring spatial-temporal change of physical conditions in neighborhoods with street view imagery • Designed computer vision tutorials for student fellows • Organized guest seminars for student fellows 	

SERVICE	Reviewer for: Water Resources Research, Advanced in Water Resources, Journal of Hydrology, Hydrogeology Journal, Mathematical Geosciences, Scientific Reports, Geophysics	
	Organizing committee, AI for Scientific Discovery: From Theory to Practice, <i>Neural Information Processing Systems Workshop (NeurIPS 2023)</i>	2023
	Session chair/primary convener: Advances in Data Assimilation and Uncertainty Quantification of Water Resources Management, <i>AGU Fall Meeting</i>	2022, 2023
	Stanford Data Science Scholar Blog: Introduction to Spatial Data Analysis	2022
	Student DEI leader representative, Stanford Earth	2021 - 2022
	Graduate panelist for Stanford Earth IDEAL (Inclusion, Diversity, Equity, and Access) faculty search	2021
	Co-president in Association of Chinese Students and Scholars at Stanford	2019 - 2020
	Student organizing committee, Women in Data Science (WiDS) at Stanford Earth	2019
HONORS AND AWARDS	Outstanding Graduate Student Award: In recognition of exceptional scholarship and research accomplishments in the Department of Earth and Planetary Sciences	2023
	"Unexpected Discovery" Innovation Award, Frontier Development Lab: Using sensitivity analysis to improve physical simulations' accuracy	2022
	Stanford Data Science Scholars Program Fellowship (\$100,000): Awarded to Stanford Ph.D. students who are involved in the challenging use of data science at the frontiers of their research, 11 awardees out of 151 applications	2020 - 2022
	Geological Sciences Department Travel Fund 2021, 2022	2021, 2022
	Society for Industrial and Applied Mathematics (SIAM) Travel Awards	2021
	Harriet Benson Fellowship Award (\$5,000): honors exceptional scholarship and research accomplishments by graduate students in the Department of Geological Sciences	2020
	2nd Prize in Stanford Big Earth Hackathon	2018
	Meritorious in COMAP's Mathematical Contest in Modeling	2016
	Houston BAA Scholarship	2016
	Guanghua Scholarship	2014, 2015
	Dean's list in School of Science, HKUST	2014

INDUSTRIAL EXPERIENCE

Data Science Intern, TotalEnergies

Summer 2020

- AI & Geosciences Program based in Google Cloud Advanced Solutions Lab
- Developed a semi-supervised learning framework to optimize geophysical data interpretation with limit labels
- Quantified uncertainty of the semi-supervised learning framework in order to do active learning and help experts' sequential geophysical interpretations

SKILLS

Programming languages: Python, R, MATLAB, C/C++

Deep Learning Framework: TensorFlow, Keras, PyTorch

Other Software: L^AT_EX, Git, Jupyter Notebook, Google Cloud, Azure
