

## Lijing Wang

---

CONTACT INFORMATION	354 Mansfield Road, Storrs, CT lijingwang.github.io	lijing.wang@uconn.edu, lijingwang@lbl.gov ORCID: 0000-0001-8121-5465
PROFESSIONAL EXPERIENCE	<b>University of Connecticut</b> Assistant Professor, Department of Earth Sciences	2024/08 - Present
	<b>Lawrence Berkeley National Laboratory (LBNL)</b> Affiliate Faculty, Climate & Ecosystem Science Division Postdoctoral Fellow, Climate & Ecosystem Science Division	2024/08 - Present 2023/04 - 2024/08
EDUCATION	<b>Stanford University</b> Ph.D. in Geological Sciences (Now Earth and Planetary Sciences) Ph.D. minor in Computer Science Dissertation title: <i>Integrating data and models for sustainable decision-making in hydrology</i> Committee: Jef Caers (Primary advisor), Kate Maher, Tapan Mukerji, Peter Kitanidis, Mykel Kochenderfer	2017/09 - 2023/04 2021/09 - 2023/04
	<b>Peking University</b> B.S. in Space Physics and Applied Mathematics	2013/09 - 2017/07
RESEARCH INTERESTS	Model-data Integration for Hydrology, ML for Uncertainty Quantification, Watershed Hydrology, Groundwater-Surface Water Interactions, Decision Making for Hydrology	
BOOKS	[1] <b>L. Wang</b> , Z. Yin, J. Caers, Data Science for the Geosciences, <i>Cambridge University Press</i> , 2023	
MANUSCRIPTS UNDER REVIEW	[21] M. Field, E.J. MacKie, <b>L. Wang</b> , A. Muto, N. Shao, Improved Bathymetry Estimates Beneath Amundsen Sea Ice Shelves using a Markov Chain Monte Carlo Gravity Inversion (GravMCMC, version 1), <i>Geoscientific Model Development</i> (In Review)	
JOURNAL PUBLICATIONS	[20] <b>L. Wang</b> , S. Warix, R. Callahan, P. Sullivan, K. Singha, Data-model integration to unravel critical zone dynamics: challenges, successes, and future directions, <i>WIREs Water</i> , 2025	
	[19] <b>L. Wang</b> , Z. Xu, C. Wang, R. Thibaut, C. Ulrich, M. Sprenger, Y. Wu, E. King, H. Wainwright, R. W. H. Carroll, C. Beutler, K. H. Williams, B. Dafflon, The Role of Snowmelt and Subsurface Heterogeneity in Headwater Hydrology of a Mountainous Catchment in Colorado: A Model-Data Integration Approach, <i>Water Resources Research</i> , 2025

RESEARCH  
GRANTS

- [5] National Science Foundation, ACCESS Discover Project, Quantifying how groundwater modulates streamflow response to hydrologic extremes, Lijing Wang (PI), 750,000 Credits (1 credit  $\approx$  1 core hour) 2025 - 2028
- [4] National Science Foundation, Water, Landscape, and Critical Zone Processes (WaLCZ). Collaborative Research: Quantifying how groundwater modulates streamflow response to hydrologic extremes, Sara Warix (PI), **Lijing Wang** (co-PI), Laura Rademacher (co-PI), \$698,947 (\$172,951 to UConn) 2025 - 2028
- [3] CLAS Strategic Initiative for Multidisciplinary Research, University of Connecticut Humanities Institute's Human-Centered AI Team, key faculty, \$2,000 2025
- [2] Baseflow resilience to climate disturbances in mountainous headwater streams, NERSC AY 2025 and 2026 DOE Mission Science Allocation Award 2025-2026
- [1] Developing a benchmark hydrologic dataset and a fast AI surrogate model for assessing climate impacts on mountainous hillslopes, the National Artificial Intelligence Research Resource (NAIRR) Pilot awarded projects 2024

MENTORING

**Ph.D. Student:**

Primary Advisor:

- Yeonju Kim, Department of Earth Sciences, University of Connecticut, 2024
  - USGS FLOW (Future Leaders in Observation of Water) Academy Summer Fellowship, 2026
- Victor Oladoja, Department of Earth Sciences, University of Connecticut, 2024
  - CUAHSI National Water Center Innovators Program Summer Institute Fellowship, 2025

Associate Advisor:

- Noah Kravette, Department of Earth Sciences, University of Connecticut, 2023
- Joshua Lee, Department of Earth Sciences, University of Connecticut, 2024
- Kari Comstock, Department of Earth Sciences, University of Connecticut, 2024

**Undergraduate Student:**

- Jacob Gorman, Double Major in Earth Sciences and Computer Science, University of Connecticut, 2025
- Amber Caruso, Environmental Engineering, University of Connecticut, 2025
- Emily Rochette, Earth Sciences, University of Connecticut, 2025
- Adam Argiro, Earth Sciences, University of Connecticut, 2025. Current Position: Master of Applied Science, Civil Engineering at Dalhousie University.

## TEACHING

**Introduction to Groundwater Hydrology** (ERTH 4735/5735, NRE 4135)  
University of Connecticut Fall 2024, 2025

**Machine Learning and Numerical Modeling in Hydrology** (ERTH 4750/5750)  
University of Connecticut Spring 2026

**Machine Learning in Geosciences**  
Guest Lecture, University of Texas at Arlington Feb 2024

- Machine learning applications in geosciences
- Introduction to geostatistics

**Data Science for Geoscience** (GEOLSCI 6, GEOLSCI 240)  
Teaching Assistant, Stanford University 2019 - 2022

- Taught both graduate level ( $\sim 40$  students) and undergraduate level ( $\sim 15$  students) classes
- Developed new course materials including geoscientific data case studies, python notebooks and homework
- Mentored students to apply data science tools to their own geoscientific problems
- Designed a new textbook: Data Science for the Geosciences

## INVITED TALKS

**Massachusetts Institute of Technology** | Computational Science and Engineering Community Seminar Oct 2025

**Stony Brook University** | Department of Geosciences Colloquium Apr 2025

**Early Career Critical Zone Research Coordination Network Workshop** Mar 2025

**Society of Exploration Geophysicists** | Workshop: Improving Understanding and Treatment of Uncertainty in Groundwater Science and Management Feb 2025

**University of Connecticut** | Global Environmental Remote Sensing Laboratory, Department of Natural Resources and the Environment Oct 2024

**University of Arizona** | Department of Hydrology and Atmospheric Sciences Seminar Apr 2023

**SLAC National Accelerator Laboratory** | Environmental Geochemistry Group Research Talk Mar 2023

**University of Connecticut** | Department of Earth Sciences Seminar Feb 2023

**University of Florida** | Department of Geological Sciences Seminar Jan 2023

HONORS AND AWARDS	2025 PROSE book awards of Association of American Publishers, Earth Science Category Winner	2025
	Andrei Borisovich Vistelius Research Award, International Association for Mathematical Geosciences	2024
	Early Career Geoscience Faculty Workshop Travel Fund (\$1,600), Saint Paul, MN	2024
	Outstanding Graduate Student Award (\$1,000): In recognition of exceptional scholarship and research accomplishments in the Department of Earth and Planetary Sciences, Stanford University	2023
	Unexpected Discovery Innovation Award, Frontier Development Lab: Using sensitivity analysis to improve physical simulations' accuracy	2022
	Stanford Data Science Scholars Program Fellowship (\$100,000): Awarded to Stanford Ph.D. students who are involved in the challenging use of data science at the frontiers of their research, 11 awardees out of 151 applications	2020 - 2022
	Geological Sciences Department Travel Fund	2021, 2022
	Society for Industrial and Applied Mathematics (SIAM) Travel Awards	2021
	Harriet Benson Fellowship Award (\$5,000): honors exceptional scholarship and research accomplishments by graduate students in the Department of Geological Sciences, Stanford University	2020
	2nd Prize in Stanford Big Earth Hackathon	2018
	Meritorious in COMAP's Mathematical Contest in Modeling	2016
	Houston BAA Scholarship	2016
	Guanghua Scholarship	2014, 2015
	Dean's list in School of Science, HKUST	2014

SERVICE	UConn CLAS AI Committee	2026 - present
	UConn CLAS Scholarship Selection Committee	2025 - 2026
	UConn Graduate School, Network for Enriched Mentorship mentor	2024 - present
	Graduate and DEI Committee: UConn Earth Sciences	2025 - 2026
	Search and Award Committee: UConn Earth Sciences	2024 - 2025
	Primary convener/session chair: Machine Learning and Data Assimilation for Terrestrial Hydrologic Modeling and Discovery, <i>AGU Fall Meeting</i>	2022 - 2025
	Convener: Diagnostics, Sensitivity, and Uncertainty Analysis of Earth and Environmental Models, <i>AGU Fall Meeting</i>	2024
	Editorial Board, Applied Computing and Geosciences	2025 - present
	Guest Associate Editor, Special Issue: Advances in Geostatistical Learning, <i>Frontiers in Applied Mathematics and Statistics</i>	2024
	Grant Reviewer (Adhoc and Panel): National Scientific Foundation	2023 - 2026
	Grant Reviewer (Adhoc): United States Geological Survey	2024
	Grant Reviewer (Panel): NASA Water and Energy Cycle Program	2024
	AGU Hydrologic Uncertainty Technical Committee	2023 - 2025
	Reviewer: Water Resources Research, <i>Advanced in Water Resources</i> , <i>Journal of Hydrology</i> , <i>Journal of Geophysical Research: Machine Learning and Computation</i> , <i>Hydrology and Earth System Sciences</i> , <i>Environmental Science &amp; Technology</i> , <i>Hydrogeology Journal</i> , <i>Computers &amp; Geosciences</i> , <i>Mathematical Geosciences</i> , <i>Engineering Geology</i> , <i>Geophysics</i> , <i>Scientific Reports</i> , <i>Transport in Porous Media</i> , <i>Applied Computing and Geosciences</i>	
	Core Knowledge and Skills Working Group (>250 Hydrogeologists): Hydrogeologist Modeling Group 2 Lead	2024 - 2026
	Mentor (3 mentees), 2024 Data-Model Integration Meeting at Mines	2024
	Organizing committee, AI for Scientific Discovery: From Theory to Practice, <i>Neural Information Processing Systems Workshop (NeurIPS 2023)</i>	2023
	Stanford Data Science Scholar Blog: Introduction to Spatial Data Analysis	2022
	Student DEI leader representative, Stanford Earth	2021 - 2022
	Technical mentor, Data Science for Social Good Summer Program, Stanford University	2021
	Graduate panelist for Stanford Earth IDEAL (Inclusion, Diversity, Equity, and Access) faculty search	2021
	Co-president in Association of Chinese Students and Scholars at Stanford	2019 - 2020
	Student organizing committee, Women in Data Science (WiDS) at Stanford Earth	2019
