

Lijing Wang

CONTACT INFORMATION	354 Mansfield Road, Storrs, CT lijingwang.github.io	lijing.wang@uconn.edu, lijingwang@lbl.gov ORCID: 0000-0001-8121-5465
PROFESSIONAL EXPERIENCE	University of Connecticut Assistant Professor, Department of Earth Sciences	2024/08 - Present
	Lawrence Berkeley National Laboratory (LBNL) Affiliate Faculty, Climate & Ecosystem Science Division Postdoctoral Fellow, Climate & Ecosystem Science Division	2024/08 - Present 2023/04 - 2024/08
EDUCATION	Stanford University Ph.D. in Geological Sciences (Now Earth and Planetary Sciences) Ph.D. minor in Computer Science Dissertation title: <i>Integrating data and models for sustainable decision-making in hydrology</i> Committee: Jef Caers (Primary advisor), Kate Maher, Tapan Mukerji, Peter Kitanidis, Mykel Kochenderfer	2017/09 - 2023/04 2021/09 - 2023/04
	Peking University B.S. in Space Physics and Applied Mathematics	2013/09 - 2017/07
RESEARCH INTERESTS	Model-data integration for hydrology, groundwater storage in mountainous watersheds, machine learning-based model calibration, stochastic hydrology, non-stationary geostatistics, decision making for uncertain hydrologic systems	
BOOKS	[1] L. Wang , Z. Yin, J. Caers, Data Science for the Geosciences, <i>Cambridge University Press</i> , 2023	
MANUSCRIPTS UNDER REVIEW AND IN PREPARATION	[19] L. Wang , Z. Xu, C. Wang, R. Thibaut, C. Ulrich, M. Sprenger, Y. Wu, E. King, H. Wainwright, R. W. H. Carroll, K. H. Williams, B. Dafflon, Quantifying the Impacts of Snow Dynamics and Subsurface Structure on Hydrology in Mountainous Hillslopes Through Field and Modeling Investigations, 2025 (in prep.) [18] B. Dafflon, L. Wang , C. Wang, L. Rossi, S. Uhlemman, H. Gonzalez-Raymat, C. Eddy-Dilek, H. Wainwright, Spatio-Temporally Resolved Observations Provide New Insights on Thermo-Hydrological Processes in a Riparian Zone, 2025 (in prep.) [17] L. Wang , T. Babey, Z. Perzan, S. Pierce, M. Briggs, K. Boye, K. Maher, Quantifying Groundwater Response and Uncertainty in Beaver-influenced Mountainous Floodplains using Machine Learning-based Model Calibration, <i>Water Resources Research</i> , 2025 (Under Review)

RESEARCH GRANTS	[1] L. Wang , Developing a benchmark hydrologic dataset and a fast AI surrogate model for assessing climate impacts on mountainous hillslopes, the National Artificial Intelligence Research Resource (NAIRR) Pilot awarded projects. 2024
MENTORING	Ph.D. Student: Yeonju Kim, Department of Earth Sciences, University of Connecticut (2024 -) Victor Oladoja, Department of Earth Sciences, University of Connecticut (2024 -)
TEACHING	Introduction to Groundwater Hydrology (ERTH 4735, NRE 4135) University of Connecticut Fall 2024
	Machine Learning in Geosciences Guest Lecture, University of Texas at Arlington Feb 2024
	<ul style="list-style-type: none"> • Machine learning applications in geosciences • Introduction to geostatistics
	Data Science for Geoscience (GEOLSCI 6, GEOLSCI 240) Teaching Assistant, Stanford University 2019 - 2022
	<ul style="list-style-type: none"> • Taught both graduate level (~ 40 students) and undergraduate level (~ 15 students) classes • Developed new course materials including geoscientific data case studies, python notebooks and homework • Mentored students to apply data science tools to their own geoscientific problems • Designed a new textbook: Data Science for the Geosciences

SERVICE	Grant Reviewer (Adhoc): United States Geological Survey	2024
	Grant Reviewer (Panel): NASA Water and Energy Cycle Program	2024
	Grant Reviewer (Adhoc and Panel): National Scientific Foundation	2023 - present
	Primary convener/session chair: Advances in Data Assimilation and Uncertainty Quantification of Water Resources Management, <i>AGU Fall Meeting</i>	2022 - 2024
	Convener: Diagnostics, Sensitivity, and Uncertainty Analysis of Earth and Environmental Models, <i>AGU Fall Meeting</i>	2024
	Mentor (3 mentees), 2024 Data-Model Integration Meeting at Mines	2024
	Guest Associate Editor, Special Issue: Advances in Geostatistical Learning, <i>Frontiers in Applied Mathematics and Statistics</i>	2024
	Reviewer: <i>Water Resources Research</i> , <i>Advanced in Water Resources</i> , <i>Journal of Hydrology</i> , <i>Journal of Geophysical Research: Machine Learning and Computation</i> , <i>Hydrogeology Journal</i> , <i>Computers & Geosciences</i> , <i>Mathematical Geosciences</i> , <i>Engineering Geology</i> , <i>Geophysics</i> , <i>Scientific Reports</i>	
	AGU Hydrologic Uncertainty Technical Committee	2023
	Organizing committee, AI for Scientific Discovery: From Theory to Practice, <i>Neural Information Processing Systems Workshop (NeurIPS 2023)</i>	2023
	Stanford Data Science Scholar Blog: Introduction to Spatial Data Analysis	2022
	Student DEI leader representative, Stanford Earth	2021 - 2022
	Technical mentor, Data Science for Social Good Summer Program, Stanford University	2021
	Graduate panelist for Stanford Earth IDEAL (Inclusion, Diversity, Equity, and Access) faculty search	2021
	Co-president in Association of Chinese Students and Scholars at Stanford	2019 - 2020
	Student organizing committee, Women in Data Science (WiDS) at Stanford Earth	2019

HONORS AND AWARDS	Andrei Borisovich Vistelius Research Award, International Association for Mathematical Geosciences	2024
	Early Career Geoscience Faculty Workshop Travel Fund (\$1,600), Saint Paul, MN	2024
	Outstanding Graduate Student Award (\$1,000): In recognition of exceptional scholarship and research accomplishments in the Department of Earth and Planetary Sciences, Stanford University	2023
	Unexpected Discovery Innovation Award, Frontier Development Lab: Using sensitivity analysis to improve physical simulations' accuracy	2022
	Stanford Data Science Scholars Program Fellowship (\$100,000): Awarded to Stanford Ph.D. students who are involved in the challenging use of data science at the frontiers of their research, 11 awardees out of 151 applications	2020 - 2022
	Geological Sciences Department Travel Fund	2021, 2022
	Society for Industrial and Applied Mathematics (SIAM) Travel Awards	2021
	Harriet Benson Fellowship Award (\$5,000): honors exceptional scholarship and research accomplishments by graduate students in the Department of Geological Sciences, Stanford University	2020
	2nd Prize in Stanford Big Earth Hackathon	2018
	Meritorious in COMAP's Mathematical Contest in Modeling	2016
	Houston BAA Scholarship	2016
	Guanghua Scholarship	2014, 2015
Dean's list in School of Science, HKUST	2014	
INVITED TALKS	Stony Brook University Department of Geosciences Colloquium	Apr 2025
	Society of Exploration Geophysicists Workshop: Improving Understanding and Treatment of Uncertainty in Groundwater Science and Management	Feb 2025
	University of Connecticut Global Environmental Remote Sensing Laboratory, Department of Natural Resources and the Environment	Oct 2024
	University of Arizona Department of Hydrology and Atmospheric Sciences Seminar	Apr 2023
	SLAC National Accelerator Laboratory Environmental Geochemistry Group Research Talk	Mar 2023
	University of Connecticut Department of Earth Sciences Seminar	Feb 2023
University of Florida Department of Geological Sciences Seminar	Jan 2023	
PRESENTATION AND POSTER	[30] L. Wang , T. Babey, Z. Perzan, S. Pierce, K. Boye, K. Maher, The Influence of Floodplain Architecture on Groundwater Responses to Beaver-Induced Inundation, <i>American Geophysical Union, Fall Meeting 2024</i> [Oral]
